Sequence enumeration and the De Bruijn-Van Aardenne Ehrenfest-Smith-Tutte theorem

- **Author/Creator:** Jackson, D. M.
- **Contributor:** Goulden, I. P.
- **Publication Date:** 1977
- **Subject:** Combinatorial enumeration problems; Directed graphs; Paths and cycles (Graph theory)
- **Description:** Bibliography: leaves 12-13.
- **Identifier:** OCLC: (OCoLC)71464937
- **Series:** Research report (University of Waterloo. Dept. of Combinatorics and Optimization) ; CORR 77-26.; Research report ; CORR 77/26
- **Publisher:** Waterloo, Ont. : Dept. of Combinatorics and Optimization, University of Waterloo
- **Format:** 13 leaves ; 29 cm. -
- **Source:** Library Catalog
